BR1754 - Agricultural land for sale Supetar, positioned approx. 2.23km from the coast, which translates to an easy 8-minute drive. The plot with a sea view spans about 13,800m2 and includes several useful features, such as a small stable suitable for keeping domestic animals, as well as a number of old olive trees. Access to the property is straightforward—most of the route follows the main road, with the final 130 meters leading along a local access path.

Because of its generous size and agricultural designation, this terrain is suitable for many types of rural activities. It can be used for raising livestock, developing an olive grove, or cultivating various Mediterranean crops that thrive in this climate. The existing countryside building already offers basic conditions for work and storage, giving the future owner a practical starting point for further upgrades or expansion.

The position of this land for sale is another strong advantage. Although it lies within the administrative area of Supetar and is therefore close to everyday amenities, it still provides the quiet atmosphere and privacy typical of a rural environment. This combination makes it a compelling option for anyone seeking both convenience and a peaceful agricultural setting.
